FT Vest Total Return Income Fund: Series A4
NOTES TO SCHEDULE OF INVESTMENTS
March 31, 2026 (Unaudited)

Note 1 – Valuation of Investments

UMB Fund Services, Inc., the Fund’s administrator, calculates the Fund’s net asset value (“NAV”) as of the close of business on the last day of each month and at such other times as the Board of Trustees (the “Board”) may determine, including in connection with repurchases of Shares, in accordance with the procedures described below or as may be determined from time to time in accordance with policies established by the Board.

For purposes of calculating NAV, portfolio securities and other assets for which market quotations are readily available are valued at market value. A market quotation is readily available only when that quotation is a quoted price (unadjusted) in active markets for identical investments that the Fund can access at the measurement date, provided that a quotation will not be readily available if it is not reliable.

Investments for which market quotations are not readily available are valued at fair value as determined in good faith pursuant to Rule 2a-5 under the Investment Company Act of 1940, as amended. As a general principle, the fair value of a security or other asset is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Pursuant to Rule 2a-5, the Board has designated First Trust Capital Management L.P. (the “Investment Adviser”) as the valuation designee (“Valuation Designee”) for the Fund to perform in good faith the fair value determination relating to all Fund investments, under the Board’s oversight. The Investment Adviser carries out its designated responsibilities as Valuation Designee through its Valuation Committee. The fair values of one or more assets may not be the prices at which those assets are ultimately sold, and the differences may be significant.

The Valuation Designee may value put and call options by taking the mid price between the bid and ask price. Certain exchange-traded options, such as Flexible Exchange[®] Options, are typically valued using a model-based price provided by a third-party pricing service provider.

The Valuation Designee may value Fund portfolio securities for which market quotations are not readily available and other Fund assets utilizing inputs from pricing services, quotation reporting systems, valuation agents and other third-party sources.

Assets and liabilities initially expressed in foreign currencies will be converted into U.S. dollars using foreign exchange rates provided by a pricing service. Trading in foreign securities generally is completed, and the values of such securities are determined, prior to the close of securities markets in the United States. Foreign exchange rates are also determined prior to such close. On occasion, the values of securities and exchange rates may be affected by events occurring between the time as of which determination of such values or exchange rates are made and the time as of which the NAV of the Fund is determined. When such events materially affect the values of securities held by the Fund or its liabilities, such securities and liabilities will be valued at fair value as determined in good faith by the Valuation Designee.

Note 2 – Fair Value Measurements and Disclosure

ASC Topic 820 - *Fair Value Measurement* (“ASC 820”) defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosure about fair value measurements. It also provides guidance on determining when there has been a significant decrease in the volume and level of activity for an asset or a liability, when a transaction is not orderly, and how that information must be incorporated into a fair value measurement.

FT Vest Total Return Income Fund: Series A4
NOTES TO SCHEDULE OF INVESTMENTS - Continued
March 31, 2026 (Unaudited)

Under ASC 820, various inputs are used in determining the value of the Fund's investments. These inputs are summarized into three broad levels as described below:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following table summarizes the Fund's investments that are measured at fair value by level within the fair value hierarchy as of March 31, 2026:

| | <u>Level 1</u> | <u>Level 2</u> | <u>Level 3**</u> | <u>Total</u> |
|---------------------------------|----------------------|---------------------|------------------|----------------------|
| Assets | | | | |
| Investments | | | | |
| Common Stocks* | \$ 81,607,946 | \$ - | \$ - | \$ 81,607,946 |
| Short-Term Investments | <u>1,512,301</u> | <u>-</u> | <u>-</u> | <u>1,512,301</u> |
| Total Investments | | | | 83,120,247 |
| Purchased Options Contracts | - | 6,762,261 | - | 6,762,261 |
| Total Investments and Options | <u>\$ 83,120,247</u> | <u>\$ 6,762,261</u> | <u>\$ -</u> | <u>\$ 89,882,508</u> |
| Liabilities | | | | |
| Written Options Contracts | \$ 533,643 | \$ 5,025,704 | \$ - | \$ 5,559,347 |
| Total Written Options Contracts | <u>\$ 533,643</u> | <u>\$ 5,024,704</u> | <u>\$ -</u> | <u>\$ 5,559,347</u> |

*All common stocks held in the Fund are Level 1 securities. For a detailed break-out of common stocks by major industry classification, please refer to the Schedule of Investments.

** The Fund did not hold any Level 3 securities at period end.
